

**AUTHORS INDEX of JWE Vol.16 (2017)**

<b>A-G</b>	<b>G-O</b>	<b>P-Z</b>
<p>C. Aksoy, see A. Dass                      F. Albertos-Marco, <i>A Model-based Approach for Describing Offline Navigation of Web Applications</i> (1&amp;2) 1                      K.M. Anderson, see M. Barrenechea                      A.A. Aydin, see M. Barrenechea                      B. Bai, see S-H Chen                      M.A. Barcelona, <i>Applying a Model-Based Methodology to Develop Web-Based Systems of Systems</i> (3&amp;4) 212                      M. Barrenechea, <i>Getting the Query Right for Crisis Informatics Design Issues for Web-Based Analysis Environments</i> (5&amp;6) 399                      J. Berri, <i>Constraint-based Context Modeling and Management for Personalized Mobile Systems</i> (1&amp;2) 103                      L.G. Borgoñón (I), see F.J. Domínguez-Mayo                      L.G. Borgoñón (II), see M.A. Barcelona                      G.A. Bosetti, <i>An approach for building Mobile Web Applications through Web Augmentation</i> (1&amp;2) 75                      R. Britto, <i>A Taxonomy of Web Effort Predictors</i> (7&amp;8) 541                      F. Casati, see B. Valeri                      S-H Chen, <i>Service Recommendation Based on Separated Time-aware Collaborative Poisson Factorization</i> (7&amp;8) 595                      P. Cimiano, <i>Editorial</i> (5&amp;6) 361                      F. Daniel, see B. Valeri                      A. Dass, <i>Relaxation of Keyword Pattern Graphs on RDF Data</i> 5&amp;6) 363                      A. Dimitriou, see A. Dass                      F.J. Domínguez-Mayo (I), <i>Editorial</i> (3&amp;4) 181                      F.J. Domínguez-Mayo (II), see E.R. Luna                      J.G. Enríquez, see J.A. García-García (III)                      M.J. Escalona (I), see E.R. Luna                      M.J. Escalona (II), see M.A. Barcelona                      M.J. Escalona (III), see J.A. García-García (III)                      Y-S Fan, see S-H Chen                      S. Firmenich, see G.A. Bosetti                      F. Frasincar, see P. Cimiano                      A. Gallidabino, <i>Architecting Liquid Software</i> (5&amp;6) 433                      J. Gallud, see F. Albertos-Marco                      Z-F Gao, see S-H Chen</p>	<p>J.A. García-García (I), see F.J. Domínguez-Mayo (I)                      J.A. García-García (II), see E.R. Luna                      J.A. García-García (III), <i>Identifying Functional Requirements Inconsistencies in Multi-Terms Projects Framed into ...</i> (3&amp;4) 228                      T.V. Geetha, see B. Sathiya                      A. Gellert, <i>Web Access Mining through Dynamic Decision Trees with Markovian Features</i> (5&amp;6) 524                      S.E. Gordillo, see G.A. Bosetti                      M. Hakeem, see M. Barrenechea                      H.U. Khan, see U. Ishfaq                      K. Iqbal, see U. Ishfaq                      U. Ishfaq, <i>Identifying the Influential Bloggers: A modular approach based on Sentiment Analysis</i> (5&amp;6) 505                      S. Jambi, see M. Barrenechea                      D-D Jiang, see W-D Liu                      D. Katic, see P. Philipp                      H.U. Khan, ... (1&amp;2) 161                      S. Kumar, see D. Verma                      M. Lakshmi, see V. Rajalakshmi                      M. Linaje, <i>An SMIL-Timesheets based temporal behavior model for the visual development of Web user interfaces</i> (7&amp;8) 571                      J.X. Liu, <i>An Approach of Web Service Organization Using Bayesian Network Learning</i> (3&amp;4) 252                      J-X Liu, see M. Shi                      W-D Liu, <i>Association Link Network Based Semantic Coherence Measurement for Short Texts of Web Events</i> (1&amp;2) 39                      G. López-Nicolás, see M.A. Barcelona                      E.R. Luna, <i>Towards Fast Metamodel Evolution in LIQUIDML</i> (3&amp;4) 183                      X-F Luo (I), see W. Ma                      X-F Luo (II), see W-D Liu                      W. Ma, <i>Discover Semantic Topics in Patents within a Specific Domain</i> (7&amp;8) 653                      M. Maleshkova, see P. Philipp                      V. Maria Anu, see V. Rajalakshmi                      E. Mendes, see R. Britto                      T. Meryyappan, see A.R.W. Sait                      T. Mikkonen, see A. Gallidabino                      E. Mjelde, <i>Load-Time Reduction Techniques for Device-Agnostic Web Sites</i> (3&amp;4) 311                      A.L. Opdahl, see E. Mjelde                      C. Pautasso, see A. Gallidabino                      S-P Peng, see N. Xu                      V.M.R. Penichet, see F. Albertos-Marco</p>	<p>P. Philipp, <i>A Semantic Framework for Sequential Decision Making</i> (5&amp;6) 471                      J.C. Preciado, see M. Linaje                      V. Rajalakshmi, <i>A Complete Privacy Preservation System for Data Mining Using Function Approximation</i> (3&amp;4) 277                      I. Ramos, see M.A. Barcelona                      A Rettinger, see P. Philipp                      J.M. Rivero, see E.R. Luna                      R. Rodriguez-Echeverria, see M. Linaje                      G. Rossi (I), see G.A. Bosetti                      G. Rossi (II), see E.R. Luna                      G. Rossi (III), see J.A. García-García (III)                      A.R.W. Sait, <i>An Automated Web Page Classifier and an Algorithm for the Extraction of Navigational Pattern from the Web Data</i> (1&amp;2) 126                      B. Sathiya, <i>A Metric Based Automatic Selection of Ontology Matchers Using Bootstrapped Patterns</i> (7&amp;8) 619                      D. Schwabe, see P. Cimiano                      M. Shi, <i>A Hybrid Approach for Automatic Mashup Tag Recommendation</i> (7&amp;8) 676                      V. Sugumaran, see B. Sathiya                      K. Systa, see A. Gallidabino                      W. Tan, see S-H Chen                      A. Taivalsaari, see A. Gallidabino                      D. Theodoratos, see A. Dass                      M. Urbietta, see J.A. García-García (III)                      M. Usman, see R. Britto                      B. Valeri, <i>On the Value of Purpose-Oriented and Focus on Locals in ...</i> (1&amp;2) 63                      D. Verma, <i>Prediction of Defect Density for Open Source Software using ...</i> (3&amp;4) 293                      J-P Voutilainen, see A. Gallidabino                      Z-G Wang, see N. Xu                      M. Winckler, see F. Albertos-Marco                      Z.H. Xia, see J.X. Liu                      N. Xu, <i>Verifying Soundness of Geodata Web Service Composition Based on Petri Nets</i> (1&amp;2) 145                      Z. Xu, see W-D Liu                      J-Y Xuan (I), see W-D Liu                      J-Y Xuan (II), see W. Ma                      R-R Xue, see W. Ma                      J. Zhang, see S-H Chen                      D. Zhou, see M. Shi</p>
