

## TABLE OF CONTENTS

Preface .....	V
Introduction .....	VII
Committees .....	IX

## KEYNOTE LECTURES ..... 1

Importance of Inhomogeneity in Rock Fracturing Deduced from Distinct Element Simulation and In-Situ Direct Shear Test T. Ishida, H. Shimizu, S. Murata and T. Kanagawa.....	3
Multiphysics of Coal-gas Interactions J.S. Liu, Z.W. Chen, Y. Wu, D. Elsworth.....	17
The Art of Rock Support in Burst-Prone Ground M. Cai and D. Champaigne.....	33
Rock Stresses, Rock Strengths and Spalling Prediction J.A. Hudson and J.P. Harrison .....	47
Seismic Hazard Evaluation in Underground Construction: Theory and Practice P.K. Kaiser.....	55
Probabilistic Seismic Hazard Analysis for Mining-induced Seismicity S. Lasocki.....	59

## PART I: UNDERSTANDING SEISMIC HAZARD ..... 73

Analysis of Smooth Blasting Parameters on Tunnels in Soft-fractured Y.H. Fu, X.B. Li, L. Zhang, L.J. Dong and J.J. Wu.....	75
Analysis of Rockburst Generation Mechanism Introduced by Explosive Stress Wave Propagation H. Qin, S.C. Li and M.B. Wang.....	81
Experimental and Numerical Study on Zonal Disintegration of Deep Tunnel X.G. Chen, Q.Y. Zhang, B. Lin, N. Zhang and D.J. Liu.....	89
Experimental Study on the Estimation of Seismic Ground Characteristic by Micro-Tremors B.M. Zhao and J. Chen .....	95
Observation and Analysis of Splitting Failure Zones in Brittle Surrounding Rock under High Geostress Q.B. Zhang, W.S. Zhu and L.F. Sun.....	101
Study on Acoustic Emission Characteristics of Reinforced Effect of Bolt to Fracture under Uniaxial Tensile Conditions N. Zhang, S.C. Li, M.T. Li, L. Yang and H.F. Sun.....	107
Experimental Study on Rockburst Processes of Limestone under Unloading Condition in Deep Roadways Z.M. Zhang and Z.X. Wang.....	113
Experiment Study of Rock Strength Degradation H.Q. Zhang, Y.N. He, L.J. Han and B.S. Jiang.....	119
Application of Plow Mining in Thin-Soft Seam with Hard Roof X.X. Zhang, D.H. Chen and Y.K. Ren.....	125
New Technologies of Rock-Like Material Direct Tensile Experiment and Its Application	

L. Yang, S.C. Li, M.T. Li and N. Zhang.....	131
Numerical Simulation of the Size Effect in Circular Tunnel Rockburst X.B. Wang, Y.S. Pan and X.L. Wu.....	137
Gob-Side Entry with Limestone Roof Retained by Anchorage Cable and Individual Prop Support Y.L. Tan and L.J. Zhang .....	143
Mle Nephograms for Stability Analysis of Steep Slopes Based on Multivariate Phase Space Reconstruction Z.P. Liu, X.F. He and M. He.....	149
Research on Developing Extension Theory to Evaluate Rock Stability in Deep-Underground Rock Engineering J.Z. Liu, J.Y. Xu, X.C. Lv and H.Y. Su .....	157
Study of Spatial Distribution and Fractal Dimension of AE Events during Rock Fracture J.P. Liu, Y.H. Li and Y.J. Yang .....	165
Experimental Study on Surface Crack Growth in Rock-like Materials in Uniaxial Tension M.T. Li, S.C. Li, L. Yang and N. Zhang.....	171
Analysis of Infrared Radiation during Deformation of Bolt and Rock Y.M. Ji .....	177
Characteristics of Acoustic Emission on the Experimental Process of Strain Burst at Depth M.C. He, J.L. Miao, D.J. Li, F.J. Zeng and R.J. Ma .....	181
Environmental Geology Disasters Prevention of Karst Tunnel Y.H. Ge, S.C. Li, Q.S. Zhang, G.F. Sun and M.B. Wang.....	189
Classification of Slope Roof Safety Based on Catastrophe Progression Method and Its Application J. C. Hong, X.B. Li, A.H. Liu and S.Q. Peng .....	195
Set Pair Analysis-Variable Fuzzy Set Model for Underground Goaf Risk Evaluation K.W. Liu, X.B. Li and H.J. Chen.....	203
Study on Test Method and Formation Mechanism of Class II Rock Behavior S.J. Chen, F.Z. Li, W.J. Guo, Y.J. Yang and Z.Q. Pu.....	209
Implementation of the Garford Dynamic Bolt at Kanowna Belle Mine R.P. Varden.....	215
Investigation of the Coal Bump Liability through Microscopic Experiments Y.D. Jiang, Y.X. Zhao and J. Zhu.....	223
Rock Mass Relaxation Mechanism and Reinforcement Method of Foundation Excavation of Super High Arch Dam P. Lin, Z.C. Li, J.X. Jin, Q. Yang and W.Y. Zhou.....	229
Study on Prevention and Control of Rock Burst in Deep-lying Deposit S.Z. Yu.....	235
Analysis on Limit Time of Subcritical Crack Growth in Different Rocks under Compressive-Shear Stresses State J.T. Li, P. Cao, D.S. Gu and C. Wu .....	239
Mechanisms of Microseismic Events Occurred in A Deep Hard-rock Mine of China C.L. Wang, A.X. Wu, X.H. Liu, X.W. Ji, X. Li, Q.W. Yan, X.G. Huang, X.B. Hou.....	245
Review on Rockburst Prediction under High Stress Conditions Y.F. Xiong, Z.C. Dong, Y.L. Ma and C.Y. Wang .....	251
A Preliminary Study of Size Effect Behavior of Rock Specimens X.R. Zhou, W. Guo and J.J. Liu.....	255
Study on Localization and Bifurcation of Geomaterials With Damage Effect	

D. Zheng, Z.C. Wang, L.S. Shen and H.J. Wang.....	261
Time-Space Calculation Model of Land Deformations Due to Pumping C.H. Zhang, H.L. Yue, L. Huang, Y.J. Yu and Y. Yang.....	269
Study of Dynamic Compressive Properties of Concrete P. Guan and P. Liu.....	275
Study of the Fracture of Rockburst Notches of Circular Caverns Y.M. Song, H.J. Shi and Y.S. Pan.....	279
Quantitative Analysis of Reliability Assessment Indexes of Mine Ventilation Network System H.D. Wang and Y.D. Ma.....	283
Significance Analysis of the Slag and Fly Ash Influence on the Strength Of High-strength Concrete Y. Wu, D.G. Wang and F. Chen.....	291
Study of the Relationship between Damage and AE Energy Accumulation of Coal Samples Based On the Uniaxial Compression Test X.B. Yang, Y.P. Qin and D.G. Wang.....	297
Numerical Forward Modelling And Inversion Of Electrical Resistivity Tomography For Monitoring Crack Growth In Rock B. Liu, S.C. Li and S.C. Li.....	301
Research On The Evaluation Of Relieve-shot Effect by Microseism C.P. Lu, L.M. Dou and H.M. Li.....	307
The Mechanism of Rockburst and the Control Countermeasure in Deep-well Tough Rock Y. Cheng, Y.L. Zhang and Y.L. Ma.....	313
Seismic Magnitude-frequency Relation: A Maximum Entropy Approach J. Deng, H.S. Peng and D.S. Gu.....	319
Probe into the Relationship between Crack Expansion and Rock Burst L.C. Rui, P.Y. Wei, P.J. Feng, Q.Q. Xin and K.L. Jun,.....	327
A New Method to Predict the Splitting Cracks of the Surrounding Rock Masses in Underground Openings Based On Energy Dissipation Principle X.J. Li, W.S. Zhu, W.M. Yang and Y. Li.....	333
Experimental Study of the Influence of Water on Marble Rock Burst Tendentiousness Z.Q. Kang, Y.B Zhang and F.P. Li,.....	339
Analysis Of The Causes Of Microseism Induced By Underground Mining--taking A Mine in Beipiao Mining Area as an Example X.G. Zang, G.Y. Wang, G.M. Yu and Y.Z. Pan,.....	343
Swallowtail Catastrophe Modeling Of the Instability of Layered Rocks T.J. Zhang, S.G. Li, X.H. Zhu, T.C. Zhang.....	347
The Influence of Abnormal Stress Distribution Adjacent To Alteration Zone on Rock Burst L.W. Zhang, D.H Qiu, S.C. Li and H.F. Sun.....	353
Synergetic Effect and Visible Simulation on AE in Rock Mass Failure Process G.M. Yu, C.A. Tang, Y.Z. Pan, G.Y. Wang and C.F. Yuan.....	359
Model for Rock-concrete-like Material Cracking Due to Corrosion Expansion of Rebar and Uniform Shear at Infinity M.B. Wang, S.C. Li and X. Yang.....	365
Dynamic Description of Strata Movement Based on Microseismic Monitoring H. Shi and F.X. Jiang.....	371

Analytic Solution of Vertical Incident P Wave Amplitude Reflected at the Free Surface in a Viscoelastic Medium B. Zhang, S.C. Li and Q.S. Zhang .....	377
The Dynamic Disturbance as a Mechanism to Trigger the Rockburst around the Underground Opening W.C. Zhu, C.A. Tang, Y.J. Zuo and S.Y. Wang.....	381
Study of Seismic Source Mechanisms in Mines of The Verkhnekamskoye Potash Deposit D. A. Malovichko .....	387
Moment Tensors of Mining Tremors-Detection Tool of the Mode of Rock-Mass Fracturing: Mechanism of Deep Events on October 24 and October 12, 2005 in Moab Khotsong Mine, S.AFRICA J. Sileny.....	399
Waveform Effect on Pre-and Post-Failure Fatigue Properties of Sandstone M. N. Bagde and V. Petros .....	407
Characteristics of the Progresses Taking Place at The Sources of High Energy Tremors Occurring in The Upper Silesian Coal Basin in Poland-Regional Character of The Phenomenon K. Stec.....	415
Study of Rockburst Based on the Hierarchy of Rock Mechanics System J. Han, H.W. Zhang and S. Li .....	427
Acoustic Emission Characteristics and Mechanical Behavior of Skarn under Unaxial Cyclic Loading and Unloading S.C. Xu, X.T. Feng and B.R. Chen.....	435
Study on the Methods of Predicting Blasting-Induced Ground Vibration Intensity Z.X. Yan, P. Jiang, J. Duan, L. Yan and H.Y. Wang.....	441
Understanding of the Occurrence of Rockbursts in Tunnels Based on 3d Stress Analysis D.Y. Li, X.B. Li and Z.L. Zhou .....	449
Rockburst Prediction in Pubugou Hydropower Station R.Zhang, H.P. Xie, J.H. Deng, W.P. Fei and M.Z. Gao.....	457
Formation of Inelastic Strain Zones nearby Stopes in Slice Mining Of Steep Ore Bodies V. Baryshnikov and L. Gakhova.....	463
Applications of the Transient Electromagnetic Method in Unfavorable Geological Bodies with Water or Mud Detection M.X. Su, S.C. Li, Y.G. Xue and D.H. Qiu.....	467
Discussion on Dynamic Mechanism of Rockburst and Advance Stress Release Method in Rockburst Prevention Q.H. Zhu, W.B. Lu, Y. Luo and M. Chen.....	473
Application of Microseismic Monitoring to Characterize Overburden Movement in Isolated Longwall Mining A.Y. Cao, L.M. Dou, Y. Qu and H. Jiang.....	483
Mechanisms Of Humidity Induced Deformation Of Rock Salt T. Spies and J. Hesser .....	491
Study of the Mechanical Properties of Coal Face Thick–Hard Top Cover Rock under the Pressure of Overlying Rock Y. Yang, D.N. Du and B. Liang .....	499
An Harmony Model of Anisotropic Elastic-Plastic Damage for Saturated Rock Y.F. Lu, H.Sun, T. Yan and X.X. Wu.....	505
Numerical Analysis of Panic Mine Rock Burst Mechanism C.R. Li, J.F. Pan, Y.W. Peng, Q.X. Qi and L.J. Kang .....	513
Seismic Wave Input Study On Nonlinear Three-Dimensional Viscoelastic Artificial Boundaries	

S.C. Li and B. Zhang.....	519
Numerical Simulation and Stress Analysis of Rockburst in Coal Mine	
Z.H. Li.....	525
Theoretical Analysis and Flac3D Simulations on Rock Cracks Propagation Criterion under Blasting Loading	
N. Liu, W.S. Zhu and X.L. Xin .....	531
Numerical Analyses on the Stability of the Underground Caverns Complex in Shuang Jiang Kou Hydroelectric Power Stations Using FLAC3D	
Y. Li, W.S. Zhu, X.J. Li and Q.B. Zhang .....	535
Three Dimensional Composite Element Method for Discontinuum and Its Application	
S. Qiang, Y. Zhang and S.H. Chen .....	541
Study on Prestressed Cable and Anchor Parameters Optimization Designs of Deep-seated Rock Tunnels of Coal Mines Based on Observation and Numerical Simulation	
Y.Z. Pan, S.B. Lu, Y.J Zhang, G.M. Yu and G.Y. Wang .....	549
Numerical Study of Acoustic Emission in the Unloading Failure Process of Heterogeneous Rocks	
P.Z. Pan, X.T. Feng and H. Zhou.....	555
Numerical Simulation of Triaxial Compression and Induced Acoustic Emission Characteristics of Rock under Different Confining Pressures	
G.Y. Li, S.C. Li and L.P. Li.....	561
Study on Behavioral Laws of Strata Pressure of Coal Face and Its Control in Thin Seam	
B.F. Li, Q. Shao and X.X. Zhai.....	569
Experimental Study on Dynamic Behavior for Blasting Excavation of Larger-span Shallow Tunnel	
Q.S. Zhang, Y. Gao, S.C. Li and Z.H. Xu.....	575
Numerical Simulation of Failure Process around Circular Openings in Granite Rock	
Q.L. Yu, C.A. Tang and T.H. Yang.....	581
Study of Microseism Induced by Tectonic Stress and Its Damage Protection of Underground Engineering	
G.M. Yu, Y.Z. Pan, G.Y. Wang, W.H. Huang and X.M. Wu.....	587
Regression Analysis of In-situ Stress Field in Underground Powerhouse Area of One Hydropower Station	
W.D. Yang, Q.Y. Zhang, X.Y. Yu, G. Wang and Y. Li .....	593
Numerical Simulation on Effect of Gas Drainage in Coal Seam under Hydraulic Fracturing	
T.H. Yang, T. Xu and C.A. Tang.....	599
Research of Mechanical Model and Numerical Simulation for Floor Burst	
X.F. Xu, L.M. Dou, Z.L. Mu and X.W. Lu.....	605
Analysis of the Effect of Joints on Rockmass Strength	
G. Wang, Y.J. Jiang and M.B. Wang.....	613
Cellular Automata Model to Simulate Rock Three Point Bending Test	
B.Q. Wang, M.T. Li and Q.Y. Zhang .....	619
Numerical Analysis on the Brittle Failure or Rockburst of Rock Mass Induced by Tunnel Excavations in Vicinity of a Fault	
W.H. Zheng, W.S. Zhu, M. Yong, Y. Li and Y.S. Ruan.....	625
Active Multidimensional Control of Rapid Deformation Instability of a Coal Roadway in a Deep Mine	
X.K. Zhang, S.R. Xie, S.B. Zhang, F.L. He and K.Q. Li.....	633
Numerical Study of Roadway Fault Impact Ground Pressure Tendentiousness of Laohutai Coal Mine	
Y.B. Zhang, Z.Q. Kang and F.P. Li .....	639
Analysis of the Characteristics and Laws of the Surface Movement with Mine Seismicity	

C.Y. Chen, G.M. Yu, Y.Z. Pan, R.H. Wang and G.Y. Wang .....	645
A New Numerical Method for Modeling Rock Mass Failure	
X.D. Feng, S.C. Li, L.P. Li and Z.H. Xu .....	651
Characters and Numerical Simulation of Rockburst in tunnels under 2500m Depth a New Numerical Method for Modeling Rock Mass Failure	
Q. Jiang, X.T. Feng, T.B. Xiang, G.S. Su and X.B. Wan .....	657
Numerical Simulation and Analysis of The Stability of Sublevel Caving Without Floor Pillar Large Cross-Section Drift	
F.K. Xiao and Z.H. Ge .....	663
Numerical Simulation of Coal Seam Bursting Hazard under the Conditions of “Three-Hard”	
Y.W. Peng, Q.X. Qi, Y. Ren, H.Y. Li and C.R. Li .....	669
Stiffness Joint Slip Induced Rockburst at Depth-A Case Study Using Distinct Element Method	
W.J. Chu, C.S. Zhang, J. Hou .....	673
Microscopic Simulation of Calcareous Sand Particle Breakage	
J.Z. Sun and Q. Guo .....	679
Occurring Mechanism and Numerical Simulation of Tension Rock Burst of the Isolated Coal Pillar	
L.G. Wang and N. Zhao .....	685
Occurring Mechanism and Numerical Simulation of Tension Type of Rock Bursts of Hard Roof	
N. Zhao and L.G. Wang .....	691
Influence of Sprayed Concrete Layer Thickness on the Tunneling Supporting Effect	
X.Z. Guo, C.A. Tang, Z.Z. Liang and T.H. Ma .....	695
Effect of Clay Mineral Content on Rockburst Based on Laboratory Test and Numerical Simulation	
X.M. Sun, C. Cheng, J.L. Miao and C.Z. Wu .....	699
Research on the Energy Mechanism of Colliery Roadway Rock-Burst	
H. Lan, Q.X. Qi and D.B. Miao .....	705
Numerical Simulation of the Elastic-Plastic Failure Process on Pillars	
Y. Yang, L. Song, D.G. Wang and Q. Li .....	711
Seepage-Stress Coupling Model of Heterogeneous Coal Seams based on Double-Media Model	
J.Y. Yu, L.G. Wang, C.H. Zhang and Y. Yang .....	715
Numerical Approach to the Influence of the Protective Layer Thickness on the Mechanical Properties of the Reinforced Concrete Beam	
X. Chen and W.H. Li .....	721
Numerical Analysis of the Elastoplastic Failure Process of the Surrounding Rocks of Underground Caverns	
Q. Li, L. Song, D.G. Wang and Y. Yang .....	727
Study on the Response of Portal Water Injection Sheet Piles Under Static/Seismic Loads	
D.D. Wang, C.H. Zhang, Q. Xue and L.S. Shen .....	731
Perspectives Of Coulomb Stress Transfer Approach In Studies Of The Interaction Among Mining-induced Seismic Events	
O.S. Beata .....	737
<b>PART II: MANAGING SEISMIC HAZARD .....</b>	<b>749</b>
The Research on Deformation Mechanism and Harmonization Supporting Technique of Bolts and Anchorage Cables in High Stress Roadway of Deep Mine	
X.X. Chen, P.F. Gou and A.Z. Yan .....	751

Analysis and Prevention of Rockburst Hazard at the Coal Face with High Stress and Hard Sandstone F.L. He, D.P. Yin, Y.J. He and J.M. Yao .....	757
The Rockburst Mechanism and Preventing Technology of Underground Projects at High Ground Stresses X.C. Lv, J.Y. Xu and J.Z. Liu .....	763
Application of Weighted Distance Discriminant Analysis Method Based on Rough Set to Rockburst Prediction D.H. Qiu, L.W. Zhang, S.C. Li and W. Cui .....	769
Application of Extensible Comprehensive Evaluation to Rockburst Prediction in a Relative Shallow Chamber H.F. Sun, S.C. Li, D.H. Qiu, L.W. Zhang and N. Zhang .....	777
Rockburst Analysis Based on Damage Crack Model of Hypoplasticity B.L. Xiong, X.L. Wang and C.J. Lu .....	785
Research on Stability of Surrounding Rock and Optimal Design of Supporting Measures of Deeply Buried Long Tunnels J.X. Zhang, X.H. Ren, H.D. Jiang and H.J. Wang .....	789
The Decision System for Disasters Mitigation in Deep Mine X.P. Zhang, S.J. Wang, G.Y. Han and M. Li .....	797
Study on Mechanical Behavior of Hard Rock Tunnel in High Geo-stresses and Optimization of Round Length in Rock Burst Area Z.Q. Zhang, X.Q. Shi, H.Y. Li and Z.J. Wan .....	803
Analysis of Laws of Microseismic Damage in a Coal Mine L.G. Chen, X.G. Zang, Y.Z. Pan, X.M. Wu and W.H. Huang .....	811
Unusual Fracturing Above Intermediate- to Deep-level Bushveld Platinum Workings B.P. Watson, A. Milev and D. Roberts .....	817
Sesimic Management And Seismic Hazard Quantification At Kanowna Belle Mine R. P. Varden .....	831
Rock Mass Strength And Siesmicity During Caving Propagation At The El Teniente Mine, Chile A. Brzovic .....	839
On Dynamic Ground Support in Burst-Prone Rock Masses C.C. Li .....	853
Controlling Seismic Hazard in Uchucchacua Mine D. R. Palomino and R.R. Begazo .....	861
Analysis of Tremors Effect on the Stability of Excavation and Support System in Underground Coal Mining Y.X. Zhao, Y.D. Jiang and J. Zhu .....	869
Development Working Support Method and Practice in the High Ground Pressure Mine W.J. Wang .....	875
Laboratory Simulation of Microseismicity Observed at Southern Longwall Colliery, Australia X. Luo, J. Boland, P. Hatherly and M. Utagawa .....	881
Effect of Stress Waves on the Danger of Rock Burst A.H. Lu, X.B. Mao and H.S. Liu .....	891
Is Mine Earthquake Prediction Possible? S. Spottiswoode .....	899
Numerical Simulation for Acoustic Emission and Source Location of Rock under Triaxial Compression F.S. Han and J.Y. Yang .....	911
Numerical Simulation of Unloading Velocity Influencing Stability of Solid Fluid Surrounding Rock A.N. Jiang, C.A. Tang and Z.Z. Liang .....	915

Assessment of Blasting Seismic Effect on Structure Based on Wavelet Packet Analysis G.S. Zhong and L.P. Ao.....	921
Panoramic Inspect and Evaluaton on Blast Effecting of Induction Caving in Hard Rock Roof J.H. Hu, K.P. Zhou and X.W. Luo.....	929
Research on Rockburst Prediction with Extenics Evaluation Based on Rough Set S.W. Qin, J.P. Chen Q. Wang and D.H. Qiu.....	937
Application of Electromagnetic Radiation Technology in Rock Burst Prediction in Coal Mines E.Y. Wang, X.F. Liu, X.Q. He and L. Ling.....	945
Application of Remote Sensing in the Information Acquisition of Earthquake Disasters G.Y. Wang, M.W. Dou, A.X. Dou, C.Y. Chen and Y.Z. Pan.....	951
Microseism Monitoring Research on Height of “two regions” of Overburden Strata in Coal Face Q.Z. Wang, S. Jiang, Y.J. Yang, Y.Q. Zhang and D.C. Wang.....	955
Study on Acoustic Emission Forecast of Compressive Rupture of Rock Sample Y.J. Yang, D.C. Wang, Y.Q. Zhang, Y.S. Li and G. Zhou.....	961
A Deployment of Broadband Seismic Stations in Two Deep Gold Mines, South Africa A. McGarr, M. Boettcher, J.B. Fletcher, M. Johnston, R. Durrheim, S. Spottiswoode and A. Milev.....	967
Application of Rock Failure Similarity Concept for Seismic Hazard Assessment V.I. German.....	975
Micro Seismic Monitoring of A Block Cave: Logistics And Performance Measurement. S. Morris, S. Talu and D. Allison.....	981
Seismic Monitoring of Large-scale Karst Processes In a Potash Mine D.A. Malovichko, R.A. Dyagilev, D.Y. Shulakov, P.G. Butyrin and S.V. Glebov.....	989
Mechanism of the Self-similarity of the Gutenberg-richter Relation: a Km-scale in-situ Observational Investigation T. Li and S.H. Chen.....	1003
Effect of Sensor Array Geometry on Microseismic Source Location Algorithms B.R. Chen and X.T. Feng.....	1011
Study on Fault Modeling Method Based on Tin and Geology Maps of Mine X.Q. Hao, Z.X. Li, M. Bin and Y.Q. Zhao.....	1017
Study of the Distribution of In-situ Stress and Rockburst Forecast from Ahehe to Makehe of South-to-north Water Transfer West Route Project S.W. Wang, H.N. Liu and Z.F. Wang.....	1025
Study on the Construction and Field Monitoring of Special Sections of Shallow-buried Metro Tunnel W. Wan and Z. Chen.....	1031
Characteristics and Mechanisms of Rockburst in a Deep Mine in China A.X. Wu, C.L. Wang, X.H. Liu, X.W. Ji, X. Li, Q.W. Yan, X.G. Huang, X.B. Hou.....	1037
Safecomine intrinsically safe System for monitoring of hazards in mines related to disturbance of the strata and environment equilibrium Z. Isakow.....	1045
Scaling Laws and Their Implications for Re-Entry Protocol Development J.A. Vallejos and S.D. Mckinnon.....	1057
In-situ Stress Measurement and Its Distribution Law in the Tangkou Deep Mine J.J. Wei, H.Q. Zhang and J.J. Wei.....	1067
Study on Mining-induced Microseismic Activity and Its Monitoring Method in the Hongtoushan Copper Mine	

X.D. Zhao, W.K. Zhao, Y.H. Li and J.P. Liu.....	1073
In-Situ Pull Testing of a Yieldable Rock Bolt, Roofex U. Ozbay and E. Neugebauer.....	1081
Event Mechanism Analysis for Seismicity Induced by a Controlled Collapse in Field II at Ocnele Mari, Romania V. Shumila and C.I. Trifu .....	1091
Use of Microseismic Monitoring for Rockburst Management at Vale Inco Mines C.I. Trifu and F.T. Suorineni .....	1105
Potency Tensors for Simple and Extended Sources in the Time Domain E.C. Lötter.....	1115
Coda Wave Interferometry in Mines R.A. Lynch.....	1127
The Evaluation of Failure Probability of Deep Hard-rock Mining Engineering J. Deng, D.S. Gu, H.S. Peng .....	1135
Forecasting of Rock Burst Based on Ant Colony Clustering Algorithm W. Gao.....	1141
Predication of Rockburst Based on Gaussian Processes with the Combinatorial Kernel Function J.Q. Guo, C.S. Qiao, C. Xu and L.C. Cheng.....	1147
Study on Overlying Strata Structure Deformation and Rockburst Predictability in Deep Mines W.J. Guo, J.X. Liu and X.K. Chang.....	1153
Optimal model of rockburst prediction Based on the fuzzy Neural Network K.Q. Li, F.L. He, S.R. Xie, S.B. Zhang, H.Q. Han and Y.J. He .....	1161
Hazard Seismic Nucleation and Prediction of Rock Burst at Donggaoshan Copper mine L.Z. Tang and C.L. Pan, L.H. Wang and F. Dai .....	1167
Weight Factor Analysis and Risk Prediction for the Mining-Induced Seismicity Using Neural Network Z.Q. Yuan, X.C. Yang and X.S. Chen .....	1173
Practice of Seismic Hazard Assessment and Risks Managing in Zhezkazgan Copper Mines (kazakhstan) V.A. Mansurov.....	1181
The Meshless Manifold Method for 2D Crack Problem W.S. Yu, S.C. Li and S.C. Li .....	1189
Research on Prediction of Instability Failure for Gassy Coal Based on Microseism D. Duan, C.A. Tang, X.J. Feng and L.X. Tang.....	1197
Study on Rockburst Prediction And Stability Evaluation for Large Cavern Group Under High Geostress Conditions G.S. Su, X.Y. Fu, L.B. Yan, X.T. Feng and Q. Jiang .....	1205
Experience of Localization and Prevention of Rock Bursts in Underground Iron-Ore Mining in Gornaya Shoria A. Eremenko, V. Seryakov, V. Eremenko, G. Moninger, V. Fillipov and I. Gromova .....	1211
Research of Ground Vibration in Demolishing Buildings by Blasting Z.P. Xu, X.B. Li, C.S. Wu and T.H. Liang.....	1217
Investigation on the Influence of Fault on the Damage Behavior of Underground Opening L.C. Li, G. Li, T.H. Ma and Z.Z. Liang.....	1223
Study on Application of Gprs Remote Wireless Transmission Technology in Microseismic Monitoring System C. Liu, C.A. Tang and G.F. Yu.....	1229
Numerical Modeling of Mode I Crack Propagation in Rocks with Meshless Method	

C. Fan and J.Y. Yang .....	1235
Numerical Simulation on Influence of Confining Pressure on Dynamic Failure Process of Roadway Containing Discontinuous Interlayer Y.J. Zuo, C.A. Tang and S.C. Li .....	1239
Numerical Analysis of Stability of Rock Mass in Shirengou Iron Mine, Tangshan city, From Open-Pit to Underground Mining T.H. Ma, C.A. Tang, L.C. Li and Y.B. Zhang .....	1247
Nucleation and Growth of Cracks From Two Surface Flaws Under Uniaxial Compression S.B. Tang, R.H.C. Wong and C.A. Tang .....	1251
Numerical simulation of Zonal Disintegration of Rocks Around Underground Working at Great Depth Y.B. Zhang, L.C. Li, T.H. Ma and Z.Z. Liang .....	1257
Numerical Analysis of Surrounding Rock Stability on the Influence of Different Geometry N.W. Xu, C.A. Tang and Z.Z. Liang .....	1263
The Dynamic Process Analysis of Stratum Movement Inclined Seam Mining F.H. Ma and Y. Ding .....	1269
Numerical Simulation of Rock Breaking Mechanism by Disc Cutter Y. Yu, C.A. Tang, Z.Z. Liang, P.C. Su and L.Y. Deng .....	1275
<b>PART III: DYNAMIC BEHAVIOUR IN CIVIL ENGINEERING .....</b>	<b>1281</b>
Study of Sublevel Coal's Displacement Mechanics in Extremely Thick Coal Seams with Bump Tendency H. Nan and Y.F. Liu .....	1283
Coal Mining Induced Environmental and Geological Problems in China Z.P. Meng, J.N. Pan and R. Wang .....	1289
Time-Variation Structure Model of Coal Bump Initiation B. Wang, X.B. Li and Z.G. Li .....	1297
Research on the Full Mechanized Top Coal Caving Design and Comprehensive Measures of Preventing Rook Burst for Thick Seams in Large Embedded Depth J.C. Wang, and W.D. Pan .....	1305
Research on the Rock Burst Mechanism of the Overall Removal of Coal Tunnel Wall in Datong Coal Mining Area's "Three Hard" Coal Roadway X.H. Wang, L.X. Kang and S.S. Yang .....	1311
Study Laws of Top Coal's Failure and Displacement in Extremely Thick Coal Seam's Sub-level Caving Mining Face Y. Zhou, H. Nan and R.F. Yuan .....	1317
Post-Closure Seismicity in the Mines of Kolar Gold Fields C. Srinivasan, Y. A. Willy and P.C. Nawani .....	1325
Study on the Working Face Floor Damage and Gas Emission F.K. Xiao and L.Q. Duan .....	1337
Acoustic Emission and Infrared Characteristics of Coal Burst Process D.J. Li, X.N. Jia, J.L. Feng, W.L. Gong, X.M. Sun and J.L. Miao .....	1341
Stress Wave Characteristics in the Process of Strain CoalBurst Experiments J.L. Miao, M.C. He, D.J. Li, F.J. Zeng and C. Cheng .....	1347
Risk Prediction Model of Rock-Burst Based on Combined Ann J. Sun, L.G. Wang, H.L. Zhang and Y.F. Shen .....	1353

Recovering Ore Reserves in Final Open Pit Walls V. Baryshnikov and L. Gakhova.....	1361
Study on Mechanisms of Rockburst Initiation and Development and Its Constitutive Equations B. Liu, Q.S. Liu and Y.X. Wu.....	1365
Research on the Microcosmic Mechanism of Coal-gas Outburst L. Hong, J.R. Wang, C.B. Deng and D.G. Wang.....	1371
Experimental Study on Water-Inrush Mechanism of Tunnels in Karst Area L.P. Li, S.C. Li, S.C. Li, Q.S. Zhang and Y.H. Ge .....	1375
Numerical Analysis of the Process of Water Inrush From the 12th Coal Floor Fangezhuang Coal Mine in China H.L. Liu, T.H. Yang, W.C. Zhu and Q.L. Yu .....	1381
Numerical Analysis of Failure Mechanism of Two Parallel Rock Pillars S.Y. Wang, S.W. Sloan, W.C. Zhu, T.H. Yang and C.A. Tang.....	1387
Study on Unstable Failure of Rock Mass in Key Route of Fault Water Inrush Z.H. Chen, L.Si, Z.Q. Cai and G.H. Xue .....	1393
Excavation & Reinforcement Stability Analysis of Underground Engineering H.D. Li and F. Li.....	1401
Seismic Network Operations at A Deep Underground Coal Mining District in Western Colorado (USA) P. Swanson, W. Koontz and J. Abshire.....	1407
Seismic Monitoring and Rock Burst Hazard Assessment in Deep Polish Coal Mines-Case Study of Rock Best Wishes, Urst on April 16, 2008 in Wujek-Slask Coal Mine G. Mutke, A. Lurka and J. Dubiński .....	1413
Study on the Mechanism of Surface Collapse above the Footwall Q.Y. Chen, M. Zhou, S.P. Wang and L.F. Mei.....	1425
Analysis of the Energy Releasing Rate in Rockburst Failure Y.H. Wang, F. Shen and C.S.Wu.....	1433
Comprehensive Detection System of Geological Precursory Characteristics for Rock Bursk and Water Inrush Z.H. Xu, S.C. Li, L.P. Li, Q.S. Zhang, W.T. Ding, Q. Liu, S.C. Li, Y.G. Xue and X.D. Fen.....	1441
Identification of the Predictive Information before Rockmass Failure Based on b-value of AE Events and Its Deficiency R.F. Yuan and H.M. Li .....	1447
Study on Tendency Analysis of Rockburst and Comprehensive Prediction of Different Types of Surrounding Rock L.X. Zhang and C.H. Li .....	1451
Stability Analysis of Surrounding Rock and Retaining Structure during Excavation of Tunnel Group and Operation under Seismic Loading X.W. Liu and G. Zhang.....	1457
Relationship of Textural Stress and Rock Failure on the Diversion of the Tunnel L.Q. Yang, Y.Y. Li and Q.L. Shu .....	1463
Study of Floor Heave in Soft Roadway H.Q. Zhang, L.J. Han, Y.N. He, B.S. Jiang, J.Z. Xia, L.H. Li and Y.J. Lin .....	1469
Prediction of Rockburst in the Niba Mountain Express Highway Tunnel L. Deng, R.G. Deng, B.J. Yuan and J. Shao .....	1475
Scale Effect of Jointed Rocks in Failure Z.Z. Liang, L.C. Li, C.A. Tang and H.Y. Chen .....	1483

Study of Strength and Deformation of Air Entrained Concrete under Biaxial Compression after Freezing and Thawing Cycles F. Zhang, S.C. Li, S.C. Li, J.P. Zhu, B. Zhang and D.L. Luo .....	1489
Study on Zonal Disintegration of Surrounding Rock in Deep Cross Roadway C.J. Sun, J.G. Ning, Y.L. Tan and H.T. Li.....	1497
Tunnel Excavation Mechanics Responding Sensibility Parameters Analysis Based on Seepage-Stress Coupling 3D Model J. Xing, J.P. Qiu and A.N. Jiang .....	1505
Study on Effect of Intermittent Joint on Arch Roadway Stability Z. Zhang, S.L. Chen, Z.Q. Huang and Q. Li.....	1513
Study of the Fatigue Degradation of Rock Slope under Cyclic Loading W.B. Jian, R. Li, J. Peng and X.F. Fan .....	1519
Analyzing Mining Tunnelling Rock Failure Probability Based on Particle Swarm Optimization-Support Vector Machine J. Xing, J.P. Qiu, A.N. Jiang and C.Y. Bao.....	1525
Study on Extensics Prediction of Rockburst in High Ground Stress Zone of Deep Buried Tunnel Y.G. Xue, S.C. Li, Y. Zhao, M.X. Su and H.Y. Li .....	1533
Spot Monitoring of Bifurcation Tunnel and Countermeasures of Construction Technologies L.Y. Yu, S.C. Li, X.H. Guo and M.B. Wang.....	1539
Research on Safety Criterion of Vibration by Drill-blast in Subway Tunnel Engineering A.Y. Zheng, M.S. Wang and Y.S. Liu .....	1547
Numerical Procedure for Modelling Dynamic Fracture of Rock by Blasting H.Y. Liu, D.J. Williams, D. M. Pedroso and W.M. Liang.....	1551
Study on Evolution Laws of Zonal Disintegration in Deep Rock Mass around Parallel Tunnels M.S. Geng, C.A. Tang and Y.B.Zhang .....	1561
An Experimental Study in Rock Slopes against Dynamic Flexural Toppling Failure M. Amini, Ö. Aydan, A. Majdi and K. Ohkubo.....	1569
A New Idea to Analyze the Failure Mechanism of Deep Earth Rocks J. Wei .....	1577
Effect of Crack-stopping Hole on Shear Fracture of Rock Q.H. Rao, H. F. Xie, Q. Xie and Z. Wang .....	1581
Study on Blasting Disturbance and Its Influence on Rock Burst during Deep Buried Tunnel P. Yan, T.B. Li, W.B. Lu and H.T. Xu .....	1587
Physical Model for Rockburst Based on Acoustic Emission X.B. Deng, W.F. Du and G. Xu .....	1597
