TABLE OF CONTENTS

Preface ---------- I
Introduction ---------- III
Committees ---------- V

PART I Keynote Speeches
----------1

The Actuality and Forecast of IT Information Technology Formula ----------3
Zhao Zi-Sen (the Chinese Academy of Engineering)

Basic Requirements of Electric and Electronic Fundamental Courses and Professional Accreditation of Engineering Education Formula ----------6
Wang Zhi-Gong (Professor)

Multimedia Services over Wireless Internet with Data Aggegation Formula ---------- 11
Lu Jian-Hua (Professor), Xing Teng-Fei, Deng Hui, Tao Xiao-Ming

On the Design Of Hybrid Multiple Access for Downlink Channel Formula ---------- 20
Jiao Bing-Li (Professor), Ma Meng, William C.Y. Lee

Research on the Ubiquitous Wisdom Networks Formula ---------- 43
Zhou Xian-Wei (Professor), Hu Jia-Hui,Wang Chao, He Huan, He Fei-Xiang

The Influence to Teaching and Research of University's Related Subjects by Fieldbus Technology and the Corresponding Solution Formula ---------- 48
Wang Yong-Hua (Professor), Jiang Hao, An Xiao-Yu

A Teaching Idea on Negative Feedback Amplifier Formula ---------- 54
Lu Li-Zhong (Professor)

The APOCALYPSE of the Innovation In Electric-Information Courses Of Famous Inside and Outside Universities Formula ---------- 61
Ku Xi-Shu (Professor), Ding Wen-Xia, Tu Rui-Bin,Li Gui-Lin, Chen Hong

Marketing Knowledge Formula ---------- 67
Feng Qiao-Ling (Professor), Feng Jian-Qin

PART II Researches and Developments

---------- 71

Core Process System Partition Atom Preemption Behavior Analysis and Parameters Design Based on EDF ---------- 73
He Feng, Xiong Hua-Gang

Lattice Based Quasi-Orthogonal STBC with Two and Four-Group Decodability for Eight Transmit Antennas ---------- 88
Lei Jing, Wei Ji-Bo, Tang Chao-Jing, Liu Wei

A Measurement Study on an End-To-End Internet Path ---------- 95
Frank C, Ma Ginga, Wang Lei, Hei Xiao-Jun

The Hardware System Design of Laser Carving Machine Based on Ds Controlling ----------102
Ning Xin, Ning Li-Pu, Wang Chao, Zhang Su-Jun, Miao Qing-Lin

A Novel Cmos Ccdvcc Ⅱ Realization and Its Applications to Programmable Instrumentation Amplifier and Multifuction Filter ----------108
Zhao Yi, Wang Wei-Dong

Ultra-High-Speed Wlan Resource Allocation Based on Cloud Decision Algorithm ----------117
Zu Yun-Xiao, Zhou Jie, Zeng Chang-Chang, Wang Yu-Ting, Song Yu-Tian, Liu Xiao

A Design of Vehicular Solar Power System----------125
Song Chang-Yuan, Zheng Wei

The Design of Cross-Coupling Filter with Open-Circuit Terminals ----------129
Wang Han-Jiang, Wu Jiao, Yang An-Sheng, Chen Jun, Yang Wei-Ming

Design and Implementation of a Simulator for Frequency Domain Circuit and Sensitivity Analysis----------133
Kang Li, Yang Lei, Zhang Zhi-Jian

Study on Output Waveform Control Strategy of Fuel Cell Power Inverter System ----------138
Ge Wei-Qing, Huang Shi-Sheng, Liu Yun-Cheng

The Design of Fireworks Lighting off Systems Based on USB Communication----------144
Li Fu-Qin, Yang Qi-Feng

Discussions on EMC of Complex Battlefield Electromagnetic Environment ----------148
Lin Mei-Qing, Gao Yu-Liang

Fast and Accurate Camera Calibration Method Based on Grid-Based Board Plane ----------155
Luo Gui-E, Yang Xin-Rong, Liu Xiao-Qun, Liu Wei

Fast Recursive Algorithm and Application of a Multi-channel Correlation Coefficient Formula ----------163
Ren Li-Min, Chen Hua-Min, Huang Da-Yong

Image Edge Detection Algorithm Based on Wavelet Transform and Dynamic Threshold Adjustment----------169
Wang Yan Niu Xiao-Ke

Design of Humanoid Arena Contest Robot and Reform of Undergraduate Creative Experiments----------174
Deng Ji-Cai, Guo Fei, Wu Xiao-Hui, Chen Hui

A Mobile Terminal Positioning Algorithm Using Real Measured Received Signal Strength ----------179
Pacho Innocent T., He Feng

Design and Simulation of Low Voltage Self-Lifting-Circuit Audio Frequency Power Amplifier ----------185
Hu Fang, Zhou Cui, Han Zhen-Duo, Qin Zhen-Jie

Test Analysis Voltage Fluctuations Performance of the Single-Phase Asynchronous Motor（Bis）----------190
Zhang Xin-Fang

Test Analysis Voltage Fluctuates Impacts Performance of the Single-Phase Asynchronous Motor (One）----------195
Zhang Xin-Fang

The Analysis and Detection of Ct Secondary Side Fault in High-Voltage Power Measuring System ----------202
Zhang Su-Jun, Yan Lei-Bing, Nie Yong-Fang, Cheng Jian-Feng, Zhang Li-Li

The Design of Automatic Irrigation System Based on PLC ----------209
Zheng Yan-Ling, Cheng Jian-Feng, Zhang Su-Jun

Study on the Experiment of All-Weather Solar Water Heater ----------214
Zhong Cheng-Yao

The Design of a Embedded Vehicle Hand-Free Phone Based on Bluetooth Communication ----------221
Zhang Duo-Ying, Tu Chang-Yan

Controlled Organic Light-Emitting Device Driving Circuit ----------226
Wang Li-Zhong, Zhao Lei, Jiang Wen-Long, Zhang Gang, Huang Tao, Gao Yong-Hui

Design of General Modulation and Demodulation Module Based on Software DSP Builder ----------233
Wu You-Fen

Design of Traffic Lights Based on LABVIEW----------239
Yang Yong-Shuang, Chen Yan

Study of the Model of Strong Electromagnetic Environment Effect of the Electronic System ----------245
Yu Dao-Jie, Zhang Chang-Feng, Pang Xue-Min, Lin Xin, Peng Ping

Current Testing Based on Fault Detection for Mixed-Signal Circuit ----------251
Zhang Can-Bing, Pan Qiang, Sun Bi-Wei

Temperature Monitoring System for Wireless Networks Based on Embedded ----------256
Zhang Duo-Ying, Zhang Wen-Qiang

Design of a New Switched-Current Biquadratic Filter----------262
Zhang Yong, Wang Wei-Dong

The Remote Control System Based on the Telephone Network ----------270
Zhao Ming-Fu, Yang Tian-Ming, Tian Xi-Yan, Du Liu-Feng, Wang Chao

Intelligent Photoelectric Sensor and Its Application----------276
Yang Tian-Ming, Tian Ze-Zheng, Gao Yin-Hao, Tian Xi-Yan, Wang Chao

Study on Solar Air-Conditioning System of Temperature Difference ----------281
Zhong Cheng-Yao

PLC Automatic Controlling System of Flushing Toilet----------288
Zhong Cheng-Yao

Active Adjustment of High Frequency Sky Wave Radar Transmitting Antenna Array-------294
Zhong Zhi-Feng, Liang Yi, Ye Lan, Liu Zhong-Lin, Li Tao

A Research on yhe Use of SEC Codes in Double Error Correcting----------300
Zhu Hong-Wei, Zhou Cui, Zhang Jin-Lin, Song Xiao-Mei

MSP430-Based Single-Phase Sine Wave Inverter----------303
Liu Zi-Xi, Fang En-Xin, Shi Wei, Luo Jin-Wei

Reserach on the Model of Emergency Evacuation Based on Agent ----------311
Ma Li, Liu Gao-Yuan, Liao Meng-Yi

The Application of DS Controlling in the Software System Design of Laser Carving Machine
----------316
Ning Xin, Ning Li-Pu, Mao Xin-Hua, Zhao Gao-Li, Miao Qing-Lin

Effect of the Structural Parameters of Air-Core Photonic Bandgap Fibers on Propagation Characteristics----------322
Wang Fang, Song Yan, Lu Wen-Juan

Solidworks Based Worm's Parametric Design and Finite Element Analysis ----------327
Tian Feng, Yang Hui, Ning Xing

Monte Carlo Simulation of Least Square Support Vector Regression Estimation Method for the Weibull Shape Parameter Estimation----------332
Zou Xin-Yao

Design and Implementation of Henan Province Tourism Information System Based on Arcims
----------337
Tang Shu-Zhuan,He Wei-Na

The Application of Matlab in Experimental Teaching of Electromagnetism and Wave ------341
Bian Li

The Design of Low Noise Amplifier in Mobile Communication Base-station----------348
Gheng Jun

Analysis of Q-Ldpc Codes in the Application of Deep Space Communications ----------353
Wen Lei, Lei Jing, Wei Ji-Bo

Coded Modulate Suitable for Cooperative Communication ----------358
Gao Yong, Lei Jing, Huang Ying

A Novel Iterative Receiver Based on Frequency Domain SISO Equalization for MIMO-OFDM System ----------365
Xiong Chun-Lin, Lei Jing, Wei Ji-Bo

Based on NIOSII to the Fingerprinting System Study and Design----------376
Wang Chuan

Design of Phase-Locking High-Resolution Frequency Synthesizer ----------384
Gan Guang-Ming

Design for a New Displacement Electric Eddy Current Sensor----------391
Song Shu-Xiang, Wan Li, Huang Shou-Lin, Xie Hong-Guo

The Method of Neuron Action Potential Sorting Based on Wavelet Transform and Fuzzy C-Means Clustering----------397
Shi Li, Wang Yan

The Design of HF Surface Wave Radar Echo Simulator Based on Digital Radio Frequency Memory----------405
Kang Yong, Yang Zhi-Jie, Zhong Zhi-Feng, Zhang Shu-Jie

Dynamic Modeling of Quadratic Buck Converter Based on State-Space Average Method ----------415
Gao Xue-Jun, Wu Jia, Ye Wei

Voltage Low Harmonic Analysis of Svpwm Inverter----------423
Yu Shi-Qiu

Analysis and Comparison on Characteristic of Internet As-Level Topology Data ----------431
Chen Le-Ran, Wang Jian-Min, Zhang Chang-Feng, Hu Chang-Chao

Development of a Fast Single Channel Analyzer----------438
Chen Pan-Hui, Lu Gu-Bing, Jin Chuan-Xi

The Image of Pests in Stored Grain Is Decomposed Based on Wavelet Transformation and Matlab----------442
Dai Zhe-Zhuan, Hu Tao, Zhou Long

One Static Path Planning of Intelligent Wheelchair----------447
Dong Xiao-Qian, Huang Jun-Hui, Huang Su-Ping

Based on Artificial Neural Network Modeling of Prosodic----------451
Dong Xiao-Zhou, Wang Xiao-Li

Application of Artificial Neural Adaptive Filter in Synthesize Detect Virtual System for Power Harmonics----------456
Fan Zheng, Men Xin-Yuan, Guo Hai-Zhen

The Study of Three-Phase APFC Technology Based on Quadratic Buck Converter ----------462
Gao Xue-Jun, Ye Wei, Wu Jia

Design of the Mobile and Portable Data Acquisition System Based on PDA ----------469
Gui Ling, Xiang Cheng

Study and Design of the Teaching Software for Communication Principle Simulation-------475
Guo Lin, Ye Peng

Application of Matlab in Signal and Systems ----------481
Hu Tao, Shi Wei

Study on Removing Large-Scale Emg in Ecg Based on Wavelet Transform ----------488
Hu Yue

The Decision Analysis of Real Estate Marketing Based on Rough Set ----------494
Huang Guo-Xiang

Discuss on the Method of Improving the Accuracy of Single Bus Way Online Temperature and Humidity Measurement Circuit ----------499
Huang Jun-Hui, Gao Jun-Wen, Yu Qun, Cai Jian-Qin

Study and Application of Online Temperature Monitoring System Based on Single Bus Way ----------508
Huang Jun-Hui, Liao Zhong-Wen, Huang Xiao-Hong

Automatic Monitoring System of Humiture Based on Arm ----------515
Ji Hong-Ju, Duan Chao-Wei, Zhang Meng-Chao

Design of Programmable Power Supply Based on STC MCU----------520
Jiang Hai-Tao, Hou Tao

Hardware Design of Remote Monitoring and Controlling System of Hf Ground Wave Radar ----------525
Kang Yong, Tian Jian-Sheng, Zhong Zhi-Feng, Liu Qiang

Design of Wireless Sensor Networks for Greenhouse Data Acquisition----------533
Li Xiao-Min, Zhao Jian-Yang

The Design of a Dynamic Focusing Laser Marking System Based on Single Chip ----------538
Li Yi, Zhang Dong-Lin

Arbitration-Authentication Codes Based on Cartesian Product----------544
Liu Jin-Long, Ji Zhi-Cheng

Design and Realization of Bootloader Based on the Arm Microprocessor----------550
Pan Xiang-Feng, Wang Jian-Ting, Gao Hui, Dang Li-Ming

Design and Realization of Erosion and Dilation With Gray Image Based on FPGA/SOPC ----------556
Shi Wei, Song Yue

The Design of a Scm-Centered Automatic Control Flag Raising System ----------560
Sun Jie

Development of Infrared Remote Controls Based on STC89C51 ----------565
Tan Yong-Ming, Yang Lei

The Performance Analysis of QFW-1 Dual-Channel Microwave Radiometer ----------571
Tian Feng-Qing, Yan Lei-Bing, Gao Yin-Hao, Wang Chao

Designing of Embedded System Based on FPGA----------577
Wang Pei-Yuan

Study of On-Line Monitoring System for MOA Based on CC1100 ----------582
Wen Hua, Zhang Ya-Jun, Zou Xue-Cheng

Self-Recovery Fragile Watermarking Algorithm Based on Wavelet Tree ----------588
Xin Li-Ping

A Brief Comment on the Practical Skills to Resolve the Problem of Electromagnetic Compatibility of Electronic Products----------594
Zuo Xiao-Qiong

Design of Vhdl-Based Stopwatch ----------599
Fang Xiao, Sun Xiao-Meng, Qin Zhen-Jie

The Study of Error Formula in Radar Distancing ----------604
Yan Lei-Bing , Gao Yin-Hao, Zhang Su-Jun

Intelligentized Wireless Dynamic Weighing System ----------609
Yang Lei, Tan Yong-Ming, Li Guang-Ming, Zhuang Zhi-Jian

Study on Gird-Connected Photovoltaic System Fabricated with DSPIC ----------616
Ye Gang

An Intelligent Heating Control System Based on Single-Chip Computer----------621
Zhang Su-Jun, Ning Xin, Zheng Yan-Ling, Yan Lei-Bing, Nie Yong-Fang, Gu Ya-Bing

The Study and Simulation of Suzuki Channel Model ----------629
Zhang Xiao-Hua, Liu Jiang-Tao, Zhuo Lu

Modeling and Simulation on Nonlinear Pid Controller ----------635
Zheng Ya-Min

The Design of Control System of Machine Tool Based on PLC----------640
Zheng Yan-Ling, Wang Zhan-Kui, Ren Xiao-Yan

Simulation and Analysis of HF Channel Based on Systemview----------646
Zhu Wei-Dong, Zhang Shao-Bo, Yang Hong-Tao

Design of Photovolatic Grid-Connected Pv System Based on DSP ----------652
Zhu Xu-Fang, Jiang Jin-Cun

An Optimized Design Method of Synchronous Sequential Logic Circuits----------657
Zou Li-Hua

Wireless Intelligent Environmental Monitoring Robot Based on ARM9----------663
Luo Jin-Wei, Shi Wei, Fang En-Xin, Wang Hao

On Chinese Character Polyphonic Coding Input ----------670
Pen Jie, Chen Shao-Yong

Study on Operational Characteristics and Its Simulation of the Magnetic-Saturated Controllable Reactor----------676
Chen Xiang

The Design and the Simulation of DQPSK Digital Demodulation Based on Software Defined Radio ----------683
Chen Yu-Lan, Zhang Xiao, Chen Shao-Yong

A Study of Human Body's Physiological Parameter Remote Monitoring System Based on GPS/GPRS/GIS----------688
Hou Qun

Multi-Site Single-Phase Energy Meter Calibrator Study ----------693
Hou Tao, Liu Xiao-Li

Design of Digital Frontend in VHF Doppler Radar----------700
Huang Jian, Zhong Zhi-Feng

An Energy-Efficient and Low Delay Mac Protocol for Wireless Sensor Network----------707
Jia Xiao-Jing, Zhang Shao-Bo

Automatic Power Outages Switching Power Supply Electricity Circuit Design and Research ----------713
Lin Xin, Yu Dao-Jie, Zhou Chang-Lin

Use Read-Only Memory System Configuration Advance Computer System's Virus Immunity Ability ----------718
Lin Xin, Yu Dao-Jie, Zhou Chang-Lin

The Design and Implementation of Software Configuration Management Platform Based on Clearcase ----------722
She Xin-Ping, Xu Jian-Ming

Gps Antenna Array of Single Satellite Positioning ----------730
Wang Jin-Bo, Bian Xiao-Lin, Liu Feng

The Design of Equal Precision Frequency Meter Base on FPGA and 89C51 ----------735
Xia Zhen-Hua

Design and Implementation of Uppch Physical Channel Decoding in TD-SCDMA ----------740
Zhang Cui-Rong, Chen Jian-Zhong, Sun Yan

A Fiber-Gating Intelligent Adaptive Alarm Algorithm Based on Wavelet Analysis----------746
Zhang Xia, Chang Di

The Improvement of Routing Lookup Mechanism in “Core” Router ----------752
Gan Guang-Ming

The Method of Data Exchange between DSP/BIOS RTDX and MATLAB ----------759
Hua Hong-Yan, Zhao Cheng, Wang Chun-Yan

The Design of Class Ab Audio Amplifier with Gain Controlled by the 32th Logarithm-----765
Li Ying

The Design of Data Acquisition Circuit of Radar Simulator Based on SOPC Technology --775
Bian Xiao-Lin, Wang Xu-Dong, Wang Jin-Bo

Study Application on Fuzzy Control Adaptive Dahlin Algorithm for Time-Delay System
----------780
Liu Xue-Min

SCBH: a Novel Clustering Algorithm in Wireless Sensor Networks----------786
Wu Shu-Ci

Pneumatics Unit Control Systematic Transform Is Designed ----------794
Zhang Ren-Xing

Design of RF Power-Measuring Circuit ----------802
Liu Xiao-Fang, Yang Fan

The Research and Implementation of Power System of Subway about Shenzhen ----------807
Yan Quan-Sheng, Du Jiang, Xiong Jian-Ping

Research and Realizing of Measurement and Control Systematic in Digital Substation -----815
Yan Quan-Sheng, Li Jia-Lin, Du Jiang, Xiong Jiang

Design and Simulation of Fluorescent Lamp Ballast EMI Filter ----------823
Yang Qing

Design of the Digital Image Player on SOPC ----------830
Yuan Hai-Lin

The Design of Fully Differential Operation Amplifier----------836
Yue Song-Jie

Applied Study and Development of Automotive Adaptive Cruise Control System----------842
Zhang Nan-Feng, Huang Jun-Hui, Chen Shu-Guan

Design and Implementation of the Test System of Airborne Instrument Landing Equipment ----------849
Zhang Qiang, Yuan Hong-Bo, Wang Fang

One-Off Blind Public Key Scheme Based on Identity ----------855
Zhao Wei-Ting, Shen Yuan

The Application of SMITH Predictor on Gauge Control System in Rolling Mill ----------861
Zhao Xin, Zhu Pei-Yan

Design and Realization of Satellite Electromagnetic Compatibility Analysis & Evaluation Software ----------867
Zhou Dong-Ming, Qin Yu-Jian, Wang Wen-Ju, Xiang Dao-Pu, He Jian-Guo

Matlab in System State Variables Analysis ----------875
Jin Bo

Development of Mobile Application Based on Android Platform ----------884
Tian Mao, Liu Wen-Chao, Li Xiao, Pan Yong-Cai

Temperature Control System Based on At89s52 Micro-controller----------890
Yue Caiqing, Pang Xuemin, Chang Qingmei

The Study and Realization of Rs Codec Based on Reconfigurable Computing Theory ------895
Pan Hong-Bing, Tan Si-Wei, Yu Sheng-Sheng

Hall Current Sensor Application in the Crh Train’s Electromagnetic Water Heater Detection ----------901
Dang Li-Ming, Liu Ming, Yao Shao-Hong, Ma Rui

Research of Smart Home Control System Based on the Zigbee Wireless Networking -------907
Chen Fu-Jun, Wen Hua

Sinusoidal Signal Function Generator Design Based on FPGA ----------913
Wang Xiao-Li, Dong Xiao-Zhou, Wang Xue-Ping

Elliptic Filter Design Based on MAX262 and MCU ----------918
Chang Qing-MEI

Fpga-Based Manchester Code Design ----------924
Sun Xiao-Meng, Fang Xiao, Qin Zhen-Jie

Real-Time Video Capture and Storage Based on Embedded System----------929
Kang Ying, Zhang Duo-Ying

Method of ADPLL Designing and Performance Test ----------938
Guan Yong-Feng, Cheng Jiang-Hua, Ku Xi-Shu, Liu Ju-Rong

PART III Studies of Course-Teaching

----------947

The Discussion of Teaching Innovation and Practice of Electrotechnics ----------949
Shen Hong-Yan

Motivating Students to Improve Effectiveness in Teaching----------954
Tang Wen-Hui, Gui Jian-Xiong, Liu Shi-Pong

Communication Technology Based on Leaky Cable Applied in Coal Wine----------960
Sun Bing-Hai

Exploration of Combination of EDA Technology and Electronic Circuit ----------965
Zou Yu

Course Group Development of Fundamental Courses Forelectronics and Information Based on Engineering Education----------969
Zu Yun-Xiao, Wang Wei-Dong, Zhang Jian-Ming, Liu Li-Hua, Ren Wei-Zheng

Study on Cultivating Students' Basic Qualities of Innovation Ability in Experiment Teaching on Fundamentals of Electronic Circuit----------974
Huang Pin-Gao, Ye Mao, Jing Xin-Xing

Research and Practice of Improvement Teaching Effect of Motor and Drive ----------980
Chen Yan, Gui Du-Yong, Ma Chun-Yan

Discussing Shallowly the Application of the Case Teaching Method in Electrical Engineering ----------984
Yang Yue-Ting, Ren Zhe-Ping, Xing Si-Ming

Contest-Plus-Schooling Model in Practice Teaching Reform of Electronics Major ----------987
Zhang Wei, Fu Guang-Chun, Xu Jun-Peng

Exploration and Practice on Interaction Model between Experiment Teaching in Electronic Technology and Scientific Study ----------991
Song Li-Xin, Li Wen-Lian, Hu Han

Analysis on Learning Difficulties of Telecommunication Majors and Educational Conversion Strategy ----------995
Tian Yi, Wu Cheng-Xia

Practice Teaching Connected to "Analog Electronic Circuits" and "Digitalelectronic Circuits" Courses---------- 1000
Cao Rui, Chen Yan

The Theory and Practice on Research Teaching in Signal and System---------- 1003
Li Ling-Yuan, Song Li-Xin, Yang Shuang

Study on Reform of Digital Logic Circuit Experiment Course---------- 1006
Ye Mao, Huang Pin-Gao, Jing Xin-Xing

Research on Analysis and Calculation Method of Analog Electronic Circuits Based on Knowledge of Circuit---------- 1010
Hua Hong-Yan, Zhao Dong-Bo, Zhao Son

Survey and Enlightenment of the Higher Engineering Education Accreditation System in Korea ---------- 1014
Gao Hui, LuXiao-Xia,Wang Lu

The Aplicntions of Phase Correlation in Course Teaching of Signals---------- 1019
Jin Bo, Zhang Zheng-Bing

Teaching to Associate Signal Analysis with Systems in Digital Signal Processing---------- 1026
Chen Jian

Practice and Exploration of Teaching Reform of the Course Sensor and Detection Technique on Cdio Concept---------- 1037
Liu Bao-Jun

Strengthening Quality Education ---------- 1046
Li Xiao-Yuan, Shi Li

Discussions on Comparison between Nodal Method of Analysis and Loop Method of Analysis---------- 1053
Sun Xian-Ming, Wei Pei-Yu, Wang Hai-Hua, Liu Wan-Qiang

Theoretical Calculations and Simulation Analysis in Differential-Operational Amplify Voltage with Parallel Negative Feedback of Circuit ---------- 1059
Yang Yi-Jun, Chen De-Bao, Li Su-Wen, Mao Pei

Application of Multisim10 in High Frequency Electronic Circuit Teaching---------- 1063
Yan Li-Yun, Qiao Xiao-Yan

Computer Application in the Signals and Systems Course---------- 1072
Jin Bo

Study and Practice of Practical Teaching in Electronic Information Engineering Major --- 1079
Chen Hua-Min, Gao You-Tang, Huang Da-Yong, Xue Xiao

Supplementary Readings of High-Speed Division to Course in Computer Principle of Organization ---------- 1087
Chen Zhi-Yong

Teaching Reform in Linear System Theory Course---------- 1092
Fang Qing-Xiang, Zhang Bao-Lin

Exploration of Experiments of “Principle of Automatic Control” Based on the Simpowersystems ---------- 1097
Gao Feng

Study on the Teaching Reform in Electrical Circuit Curriculum ---------- 1105
Gao Yin-Hao, Yan Lei-Bing, Tian Feng-Qing, Ren Xiao-Yan

School-Enterprise Cooperation Training Mode Study of Practice Teaching in Electrical and Electric Information Specialty ---------- 1109
Gao You-Tang, Wan Zhan-Zheng, Huang Da-Yong, Chen Hua-Min, Xu Yuan, Xue Xiao

Exploration of the Open Laboratory Construction under the Guidance of Constructivism ---------- 1118
Hu Shu-Jun, Zhang Shuang-De

The Function of Practical Teaching Process in Electronic Information Course ---------- 1123
Zhai Ya-Fang, Zhang Tian-Peng, Zhang Xiu-Tai

Educational Study and Innovation of Electronic Technology Courses on the Primary Post-Oriented Education---------- 1126
Kong Fan-Dong, Pan Jian, Huang Tian-Lu

Discussions on the Practical Teaching System of Applied Electronics and Information Engineering ---------- 1132
Li Fu-Qin, Li Ming

Study on Teaching Reform of Engineering Electromagnetic Field---------- 1137
Li Hui, Li Hong

Developing College Engineering Training and Enhancing Practical Teaching Reform by Experiment Teaching Demonstration Center ---------- 1142
Li Yu-Dong, Liu Jing-Yan, Wang Fu-Zhong

Study on Problem-Solving-Based Learning Experiment Teaching Mode ---------- 1148
Liu Yin-Ping

Experiment Exploration and Practice of Electromagnetic Fields and Electromagnetic Waves ---------- 1155
Liu Wan-Qiang, Sun Xian-Ming, Wang Hai-Hua

Study on the Teaching of Electromagnetic Field and Electromagnetic Wave Course ------- 1160
Sun Xian-Ming, Wei Pei-Yu, Wang Hai-Hua, Liu Wan-Qiang

Reflections on Teaching Contents and Methods of Electronic Course in Application-Oriented Engineering Schools---------- 1165
Wei Yong-Wang, Bai Jing

The Exploration of Teaching Reform of Network Engineering Course in the Applied Undergraduate Colleges ---------- 1170
Wu Shao-Xing, Ding Wei

Simulation and Application in the Teaching of Sine Wave Periodic Circuit---------- 1175
Yang Qing

TCAD Applied to the Experiment Teaching of NMOS Process Technology and Device Simulation ---------- 1181
Yang Wei-Ming, Gao Yun, Wang Bao-Yuan, Huang Jing-Hua, Zhong Zhi-Feng

Reform to Electrical and Electronic Experimental Teaching ---------- 1186
Ye Dun-Fan, Chen Jun

Teaching Reformation and Talents Cultivation with Electric and Information Engineering Department as a Case Study ---------- 1191
Zhang Shuang-De, Zhou Long

Inquires into the Electrical Fundamental Designed Experiment's Basic Principle and Method ---------- 1196
Zhao Wen-Bing, Chai Wang-Xing

Exchange of Training Experience about National Undergraduate Electronic Design Contest ---------- 1203
Zou Xin-Yao, Huang Jun-Hui

Feedback Circuit on Several Concepts ---------- 1207
Tao Xi-Ping

The Function of Project Management Mode in Training Practical and Innovation Ability for Undergraduate ---------- 1213
Yuan Hai-Lin

Concerning Low-Frequency Electronic Circuits Negative Feedback Amplifier’s Teaching Research ---------- 1218
Yuan Lan-Ying

System Restructuring and Teaching Reform for Engineering Graphics Course about Electronic Specialty ---------- 1227
Zhao Yan

The Practice and Discussion of Teaching Reform for Electrical Motor Course ---------- 1231
Zhu Jin-Mei, Li Zong-Fang, Yang Li, Bai Ye-Jin

The Application of Pspice in Teaching Electrician and Electron ---------- 1236
Cai Li

Application of EWB Simulate Software in Electronic Technology Teaching ---------- 1241
Li Hong, Zhang Tao, Yu Hong-Mei, Liu Wei

The Study of Chaotic Teaching Model in Electrical and Electronics Teaching ---------- 1247
Lin Ruo-Bo, Lin Han-Shun

The Study on Reform of Experiment of Periodic Pulse Signal Spectrum Analysis ---------- 1253
Wang Tu-Yang, Gao Yuan, Jing Xin-Xing

Study and Practices of Improving the Quality of Teaching in Analog Electronic Technique ---------- 1257
Xin Yan-Hui, Yuan He-Cai

Discussion on Teaching of Circuit Analysis Course ---------- 1261
Yang Zeng-Wang, Chen Si, Dai Xin-Yu

Infrared Remote Control Principle ---------- 1266
Yu Hong-Mei, Zhang Tao, Chen Hao-Yong, Li Hong

The Research of Digital Electronic Technology Teaching Reform---------- 1273
Yuan Xiao-Ping, Li Lei-Da, Chen Ye, Wang Du-Xia, Feng Xiao-Long, Cai Li, Niu Xiao-Ling

The Course Construction Study and Experience of Digital Logic---------- 1278
Liu Chang-Hua, Guan Shu-An, Guo Feng-Lin, Zhang Hong-Wu

The Practical Teaching Methods of Electrical Engineering and Automation Exploration-- 1284
Huang Jin

Application of Systemview in Communication Principles Design Course---------- 1289
Liu Qin, Guo Qiang, Chang Yi-Ping

Enhancing Opening Laboratory, Cultivating Practice Teaching Characteristic ---------- 1295
Wang Yue-Hai, Wang Jing-Zhong, Liu Wen-Kai

Discussion of Circuit Analysis Study-Based Teaching on Knowledge Point Association ---------- 1300
Zhang Ling, Shao Tian-Zhang

Applying Approximation Method in Teaching Electrical and Electronic Courses ---------- 1306
Wang Yong-Chao, Chen Xiao-Ling

Exploration and Practice of Double Main and Double Platform Teaching Mode ---------- 1312
Wu Shao-Qin, Jlang Li-Ping, Fu Wen-Hong

A Track Meet Computer Management System Based on Wireless Lan---------- 1316
Meng Xin-Yuan, Gong Liu-Fang

Design of Informatization Management System of Components Based on Web in Experiment Teaching ---------- 1321
Lin Sheng-Xin, Song Yue

Discussion of Achievement Evaluation Index System in Electronic and Electric Experiment Teaching ---------- 1328
Chen Qiong, Song Yue, Lu Gui-Zhu

Study and Practice of Constructing Practice Teaching System in Electronics and Information Engineering ---------- 1332
Niu Jun, Gao You-Tang, Wan Zhan-Zheng

Teaching Integration on “Circuit Theory”, “Signal and System”, and “Digital Signal Process” ---------- 1338
Zhou Chuan-Lin, Xu Zhi-Hui, Li Wei-Zho

Author Index
---------- **1343**
